## Summary

Second-year B.Tech student at IIIT (batch 2028) with a strong foundation in C, C++, Python, data structures, and object-oriented programming. Has experience building client-server applications, automation systems, and interactive projects, and is continuously learning new concepts while being open to new technologies and collaborative team environments.

## Education

**Jaypee Institute of Information Technology (IIIT)**, Noida 2024 – 2028  
B.Tech in Information Technology

**Somerville School, Greater Noida** 2021 – 2024  
Class X & XII

## Skills

- **Programming Languages:** C, C++, Python, Java
- **Web & UI:** HTML, CSS, JavaScript, React, PHP
- **Core Concepts:** Data Structures, Algorithms, Object-Oriented Programming
- **Networking:** TCP/UDP fundamentals, client-server architecture, packet analysis using Wireshark
- **Databases:** MySQL
- **Tools & Technologies:** Git, Selenium

## Projects

### Multi-Client Chat Server (CLI) — [GitHub](#)

- Designed and implemented a TCP-based client-server chat application using C and socket programming.
- Implemented a thread-per-client architecture to support multiple concurrent users.
- Enabled real-time message broadcasting, username-based identification, and graceful client disconnections.
- Integrated a server-controlled Guess-the-Number multiplayer game to demonstrate shared state handling.

### Real Estate Data Scraper — [GitHub](#)

- Developed an automated Python-based system to extract real-estate listings from dynamically rendered web pages.
- Handled dynamic dropdowns, infinite scrolling, and asynchronous content loading.
- Stored structured property data including price and location in a MySQL database.
- Strengthened debugging, testing, and data validation skills through real-world automation challenges.

### 2D Story-Based Game — Godot Engine — [GitHub](#)

- Collaborated in a 3-member team to design and develop a 2D interactive game.
- Implemented player movement, physics interactions, and dialogue systems.
- Focused on smooth gameplay and user experience through iterative testing.

## Certifications

[Oracle Cloud Infrastructure – AI Foundations Associate](#)

[Kaggle – Intro to Machine Learning](#)

[freeCodeCamp – Data Analysis with Python](#)

## Leadership

**Creative & Innovative Cell, IIIT** — Core Team Member

Contributed to technical initiatives, collaborative development, and peer coordination.
